

Shastriya Design Thinking

Ancient Wisdom for Modern Innovation for Industry 5.0

A participatory workshop using Bharatiya Darshan and ancient wisdom to strengthen inquiry, explore original ideas and prepare students and educators for the era of the fifth industrial revolution.

WHO SHOULD PARTICIPATE

Students, faculty members, Indian Knowledge Systems groups, and teams leading academic, campus or community initiatives.

THE SHASTRIYA PROCESS

A contemporary workshop adaptation

01 Heya

Identify the concern

02 Heya-Hetu

Explore causes and evidence

03 Hāna

Envision the concern resolved

04 Hānopāya

Generate possible pathways

05 Sankalp

Select and commit to an idea

06 Nishkāma Karm

Experiment without attachment

07 Chintan-Manan

Reflect, learn and refine

WHY HOST THIS WORKSHOP

Develop observation, reasoning and creativity to understand educational concerns deeply, question assumptions and select ideas through relevance, feasibility and consciousness.

LEARNING THROUGH PRACTICE

Groups explore a learning, campus or community concern, interpret available evidence, generate alternatives and outline a small experiment. They explain the reasoning behind their choice.

PARTICIPANT TAKEAWAYS

- A focused inquiry or project question and assumptions
- Alternative ideas and a reasoned selection
- A solution concept and a practical action plan
- A group presentation and reflection record
- **Getting ready for Industry 5.0**

CHOOSE YOUR FORMAT

3 hours | Focused introduction and guided application

6 hours | Deeper inquiry, ideation, concept development and feedback

Modular design allows entry at the stage relevant for participants.
